SOURCE: The provisions of this subpart appear at 31 F.R. 9680, July 16, 1966, unless otherwise noted.

#### § 1464.1755 Administration.

(a) This program will be administered by the Producer Associations Division, ASCS, under the general direction and supervision of the Executive Vice President, CCC. The program will be carried out in the field by producer associations (hereinafter referred to as "associations") acting for groups of producers. To obtain a loan, an association must enter into a loan agreement with CCC, which agreement will set forth terms and conditions prescribed by CCC. To the extent provided in the loan agreement, an association shall meet the eligibility requirements for price support prescribed in Cooperative Marketing Associations Eligibility Requirements for Price Support (30 F.R. 6907), as amended. CCC reserves the right to restrict the number of associations with which it will contract, and in so doing will select such associations as it deems necessary or desirable to effectuate the purposes of this program with a maximum of efficiency and economy of operation. The names of such associations may be obtained from the Producer Associations Division, ASCS, U.S. Department of Agriculture, Washington, D.C. 20250.

(b) Each year CCC will make loans to associations upon the security of eligible tobacco, and the associations in turn will make price support advances to eligible producers either directly or through auction warehouses. Loans made to associations will include not only the initial loan value of the tobacco, but also amounts to cover costs of receiving, processing, storing, and selling tobacco pledged as security for the loan, including that part of overhead costs not borne by the association pursuant to § 1464.1758. Associations will be authorized to enter into contracts for these services through the usual trade channels.

#### § 1464.1756 Availability of price support.

(a) Subject to the provisions of paragraph (c) of this section, price support will be available for any crop of each of the following kinds of tobacco, if producers have not disapproved marketing quotas for such crop:

Flue-cured tobacco, types 11, 12, 13, and 14.  
Kentucky-Tennessee fire-cured tobacco, types 22 and 23.  
Virginia fire-cured tobacco, type 21.  
Virginia sun-cured tobacco, type 37.  
Dark air-cured tobacco, types 35 and 36.  
Burley tobacco, type 31.  
Maryland tobacco, type 32.  
Cigar filler tobacco, type 41.  
Cigar filler and binder tobacco, types 42, 43, 44, 53, 54, and 55.  
Puerto Rican tobacco, type 46.  
Cigar binder tobacco, types 51 and 52.

(b) No price support will be available with respect to any kind of tobacco for any year for which marketing quotas have been disapproved by growers.

(c) No price support will be available on flue-cured tobacco which exceeds 110 percent of the applicable farm marketing quota.

(d) Price support to eligible producers will be made available on eligible tobacco in the following manner:

(1) *Auction market area.* (i) In the areas where tobacco is marketed through auction markets, price support will be extended through auction warehouses which have contracted with the association, on a form of agreement approved by CCC, to make price support advances to producers on behalf of the association. Producers will deliver their tobacco to auction warehouses to be displayed and offered for sale at auction. The association contract with auction warehouses will require the auction warehouses to see that producers are informed that price support advances are available and to make price support advances to eligible producers on eligible tobacco. For flue-cured tobacco the association contract with auction warehouses will also require the auction warehouse to mark any warehouse bill "No Price Support" if the marketing of the pounds of tobacco covered by that bill will result in the producer marketing in excess of 110 percent of his farm marketing quota. Producers will generally receive the price support advances from the warehouseman for any tobacco to be consigned to the association at the time the warehouseman settles with the producer for the entire quantity of the producer's tobacco that has been displayed for inspection and offered for sale on any one day's auction market. The warehouseman will in turn be reimbursed by the association with funds borrowed from CCC.

(ii) Price support will be available only at warehouses where tobacco inspection service is provided by the Con-

sumer and Marketing Service, USDA. Inspection and price support services may be extended to new markets or to additional sales on established markets in accordance with this part and Subpart A of 7 CFR Part 29. These regulations provide that such additional services may be extended only after a formal public hearing establishes the need for the services and the adequacy of the buying power that will participate.

(iii) CCC reserves the right to direct the association to withhold a contract under the price support program from any auction warehouse for one or more years if, based on previous performance of similar contracts, or other evidence, there is substantial reason to expect that such warehouse will not fulfill the contract obligations.

(iv) In the case of flue-cured tobacco, price support will be available on flue-cured tobacco markets in the States of Georgia and Florida only if such tobacco is in untied form. During the first twelve sales days on each flue-cured tobacco market, other than the Georgia and Florida markets, price support will be available on eligible tobacco of all grades of tied and untied tobacco. Beginning with the 13th day of sale, on each such market, price support will be available only on eligible tobacco offered for sale in tied form.

(2) *Nonauction market area.* Eligible producers in nonauction market areas will deliver eligible tobacco to central receiving points designated by the appropriate association. After the tobacco has been graded by USDA inspectors, the producer will receive the advance directly from the association for any tobacco to be pledged as security for loans.

(3) *Period of price support.* Price support will be available to eligible producers on eligible tobacco only during each year's normal marketing season for each kind of tobacco for which support is provided.

#### § 1464.1757 Level of price support.

(a) The level of price support to eligible producers shall be as required by statute. For each crop of any kind of tobacco the level of price support shall be determined by multiplying the support level of the 1959 crop or, if marketing quotas were disapproved for the 1959 crop the level at which the 1959 crop would have been supported if marketing quotas had been in effect, by the ratio of (1) the average index of prices paid by

farmers, as defined in section 301(a)(1)(C) of the Agricultural Adjustment Act of 1938, for the three calendar years immediately preceding the calendar year in which the marketing year begins for the crop for which the support level is being determined to (2) the average index of such prices paid by farmers for the 1959 calendar year. Generally, the price support level for each kind of tobacco will be announced soon after the beginning of each calendar year. Schedules of loan rates, by types and grades for each kind of tobacco will be announced as supplements to this statement before the opening of the markets. Flue-cured tobacco of varieties Coker 139, Coker 140, Coker 316, Reams 64, and Dixie Bright 244, or a mixture or strain of such seed varieties or any breeding line of flue-cured tobacco seed varieties, including, but not limited to, 187-Golden Wilt (also designated by such names as No-Name, XYZ, Mortgage Lifter, Super XYZ), having the quality and chemical characteristics of the seed varieties designated as Coker 139, Coker 140, Coker 316, Reams 64, or Dixie Bright 244 will be supported at one-half the support rate, plus 12½ cents, for comparable grades of acceptable varieties.

(b) Maryland tobacco classified as type 32b will be supported at 75 percent, rounded to the nearest dollar, of the support rate for comparable grades of regular type 32 tobacco.

#### § 1464.1758 Deductions from advances.

(a) The associations will be required to bear a portion of the overhead costs in connection with the loan operation. For this purpose, the associations in the auction marketing areas may charge the producer a fee of 25 cents per hundred pounds and may make such other charges as may be authorized or approved by CCC. Such charges may be collected by a deduction from the advance made to the producer on his tobacco or by arrangements with the auction warehousemen under which they will collect such charges and remit to the associations. In the nonauction market areas, the fee will be established at a rate commensurate with the services performed by the associations.

(b) If any producer on a farm is indebted to the United States and such indebtedness is listed on the county debt register, the Government will effect collection of the amount of the indebtedness

by set-off from the amount of price support advance due the producer in the following manner: Any marketing card covering tobacco eligible for price support issued for such farm in accordance with the applicable regulations issued by the Secretary of Agriculture with respect to marketing quotes (7 CFR Parts 724, 725) will bear a notation showing the indebtedness, the name of the debtor and the amount of the indebtedness. The acceptance and use of a marketing card bearing a notation of indebtedness to the United States by the producer named as debtor on such card will constitute an authorization by such producer to any tobacco warehouseman or association to pay to the United States the price support advance due the producer to the extent of his indebtedness set forth on such card but not to exceed that portion of the price support advance remaining after deduction of usual warehouse and authorized price support charges and amounts due prior lienholders. The acceptance and use of a marketing card bearing a notation and information of indebtedness to the United States will not constitute a waiver of any right of the producer to contest the validity of such indebtedness by appropriate administrative appeal or legal action.

#### § 1464.1759 Interest rate and general provisions.

The loans made to the associations will bear interest at the rate announced by CCC for each crop year and will be non-recourse both as to principal and interest except in the case of misrepresentation, fraud, or failure to carry out the loan agreement. Tobacco loses its identity as to original ownership through commingling in the packing process, and individual producers may not redeem their tobacco once it has been pledged as security for the loan. Associations will sell the loan tobacco as provided in the loan agreements for each crop, and all proceeds of sales of the loan collateral of each crop will be applied to the loan account for such crop until the loan is repaid in full.

#### § 1464.1760 Adjustment of interest and disposition of overplus.

The loan agreement for any crop between CCC and any association may include provisions under which CCC will adjust the interest rate as provided in paragraph (c) of this section and the as-

sociation will apply, as directed by CCC, one-half of the "overplus" under such agreement to the loan indebtedness of the association under other loan agreements. This arrangement will be available only to those associations which include under the arrangement all CCC loans outstanding at the time the arrangement is made.

(a) *Definition of overplus.* "Overplus" is the balance remaining from the sales proceeds of the tobacco pledged as security for the loan under any loan agreement, after deducting (1) the amount of the loan plus all handling charges and operating costs, and interest; and (2) any amount due CCC under a barter transfer agreement entered into between CCC and the association.

(b) *Disposition of overplus.* For any association which agrees to apply one-half of the overplus under a loan agreement for any crop to the loan indebtedness of the association under other agreements, the remaining one-half of the overplus shall constitute "net gains," and for any association which does not agree to so apply one-half of the overplus, the entire overplus shall constitute "net gains." Net gains shall be distributed in cash by each association to the producers who placed the tobacco under loan unless other disposition is approved by CCC.

(c) *Adjustment of interest rate.* In consideration of any association's agreement to apply to the CCC loan indebtedness under loan agreements for other crops one-half of the overplus under a loan agreement for any crop, the interest rate on the loan indebtedness under the latter agreement shall be adjusted annually, as of the beginning of each subsequent marketing year (July 1 for flue-cured tobacco loans and October 1 for loans on other kinds of tobacco) to the rate established by CCC as applicable to price support loans on the current crops, minus one percent per annum: *Provided*, That if such adjusted interest rate is determined by CCC to be less than the average rate of interest applicable to CCC's borrowings from the Treasury, the amount of interest accrued at such adjusted interest rate shall be increased at the end of the marketing year or at the time of final repayment of the loan to the amount which would have accrued at the average interest rate applicable to CCC borrowings from the Treasury, but not exceeding the rate of interest estab-

lished by CCC as applicable to the current crop year loans.

§ 1464.1761 Maturity date.

Loans made under the program will mature on demand.

§ 1464.1762 Eligible producer.

(a) All producers of Puerto Rican tobacco are eligible producers, since Puerto Rican tobacco is not under U.S. marketing quotas. Any producer of another kind of tobacco is an eligible producer if, under the applicable regulations of the Secretary of Agriculture with respect to tobacco marketing quotas for the applicable marketing year, a marketing card has been issued for his farm which, (1) if for flue-cured tobacco, does not bear the words "No Price Support," and (2) if for other than flue-cured tobacco, is designated a "Within Quota" marketing card. In general, the marketing quota regulations provide for the issuance of marketing cards designated "Within Quota" or not marked "No Price Support" where the tobacco acreage harvested for each kind of tobacco produced on the farm is not in excess of the applicable acreage allotment established under the marketing quota program for the farm.

(b) However, a "Within Quota" marketing card is not issued or a marketing card is marked "No Price Support" where (1) the planted acreage of any kind of tobacco exceeds the farm acreage allotment established therefor unless a request for disposition of excess acreage is filed promptly, or (2) tobacco is produced on land owned by the Federal Government in violation of the provisions of a lease restricting the production of tobacco.

Marketing quota cards issued pursuant to the Agricultural Adjustment Act of 1938, as amended, when utilized for the purpose of obtaining price support under this subpart, are submitted, and the data in support thereof is reported, under the Agricultural Act of 1949, as amended, and under the Commodity Credit Corporation Charter Act, as amended, and may be utilized as CCC deems necessary or desirable for the conduct of the price support program.

§ 1464.1763 Eligible tobacco.

Eligible tobacco shall be United States and Puerto Rican tobacco (as defined in

the Agricultural Adjustment Act of 1938, as amended) which (a) is of a kind and crop for which price support is available; (b) if marketing quotas are in effect, has been properly identified in accordance with applicable tobacco Marketing Quota Regulations by (1) a valid memorandum of sale issued from a Within Quota Marketing Card, if other than flue-cured tobacco, or (2) a Marketing Card which does not bear the words "No Price Support," if flue-cured tobacco; (c) if flue-cured tobacco, is offered for marketing on a Tobacco Sale Bill not marked "No Price Support," for a number of pounds which, when added to the pounds of flue-cured tobacco previously marketed, does not exceed 110 percent of the applicable farm marketing quota; (d) has been delivered to the association by the producer, either directly or through an auction warehouse, prior to sale to any other person; (e) has been delivered to the association by the producer, either directly or through an auction warehouse, in lots identified by not more than one marketing card for each lot; (f) is in sound and merchantable condition; (g) was not produced on land owned by the Federal Government in violation of the provisions of a lease restricting the production of tobacco.

§ 1464.1764 Auction warehouse certification of flue-cured tobacco.

Auction warehouses through which price support is made available to producers of flue-cured tobacco shall identify, through the use of "certified" basket tickets, all tobacco (including resale and "excess" tobacco) offered for sale at auction which is determined to be of varieties eligible for full price support. A distinguishably different type of basket ticket shall be used for all other tobacco offered for sale at auction. In the case of producer tobacco, the warehouseman shall examine the marketing card prior to the time the tobacco is offered for sale, record the marketing card serial number on the Tobacco Sale Bill, and shall use certified basket tickets on the tobacco only if the marketing card presented does not bear the words "Discount Variety." In the case of resale tobacco (tobacco which has previously been sold by the producer), the tobacco Marketing Quota Regulations provide that, when the State Executive Director, ASCS, determines there is a significant

amount of discount variety tobacco available for marketing in any marketing year, he may require tobacco which is eligible for full price support to be covered by a Form MQ 79-1, Dealer's Certification-Resale Tobacco, unless its eligibility for full price support is determined by the State Executive Director or his representative. When notified by the State Executive Director that this requirement is in effect, the warehouseman shall not use a certified basket ticket for resale tobacco unless he has obtained Form MQ 79-1, properly executed by the seller, or unless the State Executive Director has determined that the tobacco is eligible to be so identified. The Form MQ 79-1 Dealer's Certification-Resale Tobacco contains a certification by the seller to the USDA and the warehouse that the tobacco offered for sale and all other resale tobacco in which the dealer has an interest was purchased directly from the producer and was identified by a marketing card not bearing the words "Discount Variety" or was purchased by him at auction sale through a warehouse having price support available to producers and was identified by a certified basket ticket. Properly executed Dealer's Certification-Resale Tobacco shall be furnished to the USDA representative stationed at the warehouse prior to the sale of the tobacco, with a copy to the warehouse. Where the State Executive Director notifies the warehouse that the certifications of any dealer are not acceptable for this purpose, the Dealer's Certification shall not be used by the warehouse as a basis for a "certified" basket ticket. Such notice will be given to all warehouses having price support available to producers if a dealer is found to have made a false certification, or if a dealer fails to file reports required by applicable marketing quota regulations. In the latter case, the notice will be rescinded when the dealer files the reports if they show that he has not made false certifications with respect to identification of full support variety tobacco. Dealers making false certifications, or producers using marketing cards other than the one issued for the farm on which the tobacco was produced, to obtain use of certified basket tickets for tobacco not entitled to such identification, shall be subject to

applicable provisions of law relating to conspiracy, fraud, or other offenses, and to penalties imposed by applicable marketing quota regulations. A dealer, who has full support variety resale tobacco for which the Dealer's Certification cannot properly be executed because such tobacco or other tobacco in which he has an interest was acquired other than as the certification form provides, or a dealer whose certifications have been determined to be unacceptable, may have full support variety tobacco identified on a "certified" basket ticket through application to the State Executive Director. In such instances, if by examination of the marketing quota records and other evidence, the Director determines that the tobacco is of a full support variety, a special authorization will be given for the warehouses to identify the tobacco on a "certified" basket ticket.

<sup>1</sup> The advance rates listed are applicable only to tied flue-cured tobacco identified on a 1966 tobacco marketing card which does not bear either the notation "No Price Support" or "Discount Variety Limited Support" and which does not, together with all other tobacco previously marketed and currently being offered for marketing on a single tobacco sales bill, exceed 110 percent of the applicable farm marketing quota. Rates for tobacco identified on a marketing card which bears the notation "Discount Variety Limited Support", which does not bear the notation "No Price Support" and which does not, together with all other tobacco previously marketed and currently being offered for marketing on a single tobacco sales bill, exceed 110 percent of the applicable farm marketing quota, are 50 percent plus twelve and one-half cents (\$.0125) per hundred pounds of the advance rates listed. Rates for untied flue-cured tobacco are three dollars (\$3.00) per hundred pounds less for each grade than for tied tobacco similarly identified. Tobacco is eligible for advances only if consigned by the original producer and only if produced by a cooperator.

In the Georgia-Florida area price support will be available only on untied tobacco as in past years. On all markets except in the Georgia-Florida area, price support on untied tobacco will be available for the first 12 market days on all grades, and price support for tied tobacco will be available for all grades during the first 12 sale days as well as during the remainder of the marketing season.

Tobacco graded "W" (doubtful keeping order), "U" (unsound), N2, No-G or scrap will not be accepted. The Cooperative Association through which price support is made available is authorized to deduct 25 cents per hundred pounds to apply against overhead cost.
